

BOĞAZIÇI MODEL UNITED NATIONS

DRESS CODE GUIDELINE

As the Organization and Academic teams of Boğaziçi MUN, we acknowledge the existence of more than two genders. However, the fashion industry insists on labeling the clothes according to **only two genders (women and men)**, so it is simple for us to guide our participants according to those labels. If you are **a person identifying with neither of those genders**, you can prefer wearing the suggested items from both of the genders and avoiding unsuitable items for attending our conference.

For the convenience of both our teams and participants, we included a list of **unsuitable fabrics and clothing items for everyone** at the end of our guide, please check it out!
